The new technology is more than 'eye candy' for the FIFA community. Pro Player and Pro Intelligence Technology is the key component in all of our gameplay innovations, and this new technology will be used to fuel the next generation of FIFA gameplay. A full guide to the key improvements and new features in FIFA 22 Pro Player is available now. Seven key features are included in the FIFA 20 Ultimate Team Champions Edition. Next Best XI This is the best of the best for any club in the EPL, La Liga, Bundesliga, MLS, and Ligue 1 from August 22nd. Introducing the Next Best XI The Next Best XI allows you to play a future transfer market in a matter of seconds. This is the first time that we offer a play-now option for free to everyone in the world. You can create the next stars of a team by saving the current season and then coming back and selecting any XI. In this way, you can build a team of your dreams, which becomes available from the starting line-up once the season is complete. We're bringing the excitement of the new game to you straight from your PC. Customise your squad This will soon become a powerful tool to create a completely new career. The new Customise Squad feature allows you to completely modify every player in your squad; you can make him fitter, faster and stronger. With this feature you can also change your team, kits, and stadium. Tired of the same old team or kits? Well, FIFA 20 already gives you an opportunity to create a completely different team. However, you cannot change your club's stadium any longer, which means that you have to spend time and money to renovate or replace your stadium. You can now

change the design of your stadium, and also have the chance to develop your club from the bottom up. Just select the stadium from your city and follow the step-by-step instructions that will guide you through the process. Creating a stadium can be more fun than building an entire club. You can redesign the home field, convert your stadium from a football to a rugby or baseball field, or even change your goalkeeper. At present, the process requires a Designer's certificate, but we plan to extend this to any citizen in future. In addition, if you are playing on PlayStation

Features Key:

- FIFA 22 features improved passing, close control, and dribbling mechanics, making every dribble feel as powerful as a shot on goal.
- Design your own player with the new avatar creator, which lets you personalise your character, as well as share your creations with the world.
- All-new Player Impact Engine makes every tackle, throw and aerial duel feel as authentic as you've ever experienced.
- The all-new shooting system delivers more realistic goal-scoring effects, ensuring that every right-footed shot and every left-footed cross come out of the net.
- Improvements have been made throughout the game, with more short and long passing options, more realistic flicks, and more control in how the ball reacts and moves through the air.
- FIFA 22 brings you more ways to play, whether you're playing head-to-head, or finding new ways to dominate online.

Tackle Physics

- FIFA 22 gives you more ways to control ball transitions. Impact changes on every challenge, from the initial strike to the final impact.
- You'll feel every bump, ricochet and wall that is found in a football match when controlling a player.

FIFA is a series of association football video games, developed by EA Canada and published by Electronic Arts. The series is published and developed in Europe under the EA label and in North America as EA Canada and published by EA Sports. It is the best selling sports franchise worldwide. Multiplayer Features POWERED BY FOOTBALL FUTURE PLAY Mimic the match day experience of the real world by becoming a soccer player whose on-pitch

actions determine the outcome of the action. With the ability to pass or shoot faster, dribble or tackle, your movements dynamically affect the on-field action and are conveyed via enhanced viewing angles and the intuitive EAS Soccer Match Engine. INNOVATE YOUR PLAY Master your form, utilize the strengths of your favorite teammates and opponents and make the key decisions at the crucial moments of the game. Every skill, every shot, every pass can be tracked and measured. And with this precise skill tracking, the FIFA PITCHMAN DASH CAM, over one hundred player animations, and new contextual player models, every goal, foul and defensive error is captured for immediate playback to demonstrate the skill of the player. Make the Breakthrough Powered by Football, FIFA 22 introduces new gameplay innovations on every pitch and at every level. New passing, shooting and dribbling mechanics; a breakthrough physical intelligence system called "Powered by Football"; the ability to make skillful goal kicks; and tactical awareness tools, including a much improved Tactical Stick, new Goalkeeper controls, and a comprehensive new Tactical AI. Experience the World Cup on Your TV Featuring the World Cup all-new presentation engine, FIFA 22 features a breath-taking way to experience the World Cup on your TV and PC through an immersive presentation, full game control and dynamic event commentary. Sky-Scraping Shot Chemistry The improved player intelligence system, powered by Football, brings additional shooting intelligence to all players. Every shot has new parameters that are tracked and communicated to teammates to help make the right decision and go beyond the kick and flick. In addition, FIFA 22's ground-breaking new shot animation and player models provides each player's unique, aerial and free-kick shot differently from the angle they hit the ball from, ensuring more realistic shots, more player variety and new ways to score.
